# English<sup>+</sup><sub>TM</sub>

## MILLENNIUM

With *English+ Millennium<sup>TM</sup>*, we are raising language learning to new heights through winning content, multi-platform methods and leading-edge technology.

### Explore English in the Information Age!

Edusoft is dedicated to providing comprehensive solutions for accessing the international language of English. Edusoft, the global leader in educational software development, proudly introduces *English+ Millennium* - the imaginative new program containing a myriad of language activities: reading, writing, speaking, listening, and grammar.

*English+ Millennium's* learning methods include authentic English expressions, natural speech, useful contexts and internet connectivity, while its dynamic interface combines high-resolution graphics, video, animation, sound and music. Together, our expert pedagogy and leading-edge technology form a uniquely comprehensive English language program.

### A User-Centered Environment for Total Learning

*English+ Millennium* allows users to pace themselves according to personal needs and interests. Users can choose a "topic-based" learning path from several diverse options, and/or approach the content by means of the program's entertaining activities and exercises.

*English+ Millennium's* multi-skill, tailored lessons are suited to ages 12 and up and are divided into Basic, Intermediate and Advanced levels. The program is composed of nine CD modules, each of which contains over 100 learning hours (each equivalent to one year of study).

### Program Highlights

- bilingual and monolingual audio dictionary with over 13,000 words
- video & audio clips with written text support
- detailed online help in the local language
- detailed record of user's progress
- over 3,500 vocabulary words to learn
- games
- internet connectivity - *E+ Connect*
- study planner

### E-xtraordinary E-Learning on E+ Connect

*English+ Millennium* offers users exclusive access to the *E+ Connect* web site, where they will discover a range of exciting and attractively designed online activities appropriate to their skill level. By serving as a second platform for the material from the *English+ Millennium* CD, *E+ Connect* promotes learning to the highest degree.

*E+ Connect's* activities include the live competition game "Quiz Show" and "Talking Idioms", where users learn English idioms and their role in everyday situations. "Web Pals" allows users from all parts of the world to form e-mail correspondences with each other, while the treasure hunts of "Web Challenges" train them to be internet experts. In its commitment to being the leader in online and multimedia English content, Edusoft updates *E+ Connect*, in addition to its overall content, on a continual basis.

### Learn English through Interactive Simulations and Life-Like Situations

*English+ Millennium* facilitates the development of communication skills through diverse and realistic activities. In speaking exercises, for example, users are given a wide range of opportunities for interactive dialogues that depict everyday scenarios.

In addition, *English+ Millennium's* "Adventure Game" acquaints users with the accents of various English-speaking countries. Each game is set in a different English-speaking city (e.g., New York, Edinburgh), adding to the program's relevance to students all over the world.

### Advanced Technology Features

- speech recognition of sentences, measuring speech and pronunciation accuracy
- full-screen video clips
- advanced technology for branching dialogues
- animated explanations of grammatical structures in real life situations
